## PROFESSIONAL SUMMARY

Backend Engineer with hands-on experience building, stabilizing, and maintaining enterprise-grade Java applications. Worked at the intersection of development and operations contributing to Java/Spring Boot services while resolving critical production incidents with zero SLA breaches. Currently expanding into full-stack development, with a self-driven microservices project demonstrating hands-on Spring Boot, Kafka, and cloud deployment skills.

## TECHNICAL SKILLS

**Languages & Frameworks:** Java 11, Java 21, Spring Boot, Spring Security, Hibernate/JPA, MySQL, REST APIs, Microservices, AWS, EC2, S3, Apache Kafka, Event-Driven Architecture, Saga Pattern, OAuth 2.0, JWT

**Tools & Environment:** Jenkins, Docker, Git, Kubernetes, Redis, Maven, Grafana, JUnit, Postman, IntelliJ IDEA, Eclipse.

## PROFESSIONAL EXPERIENCE

### Software Engineer (Backend Dev)

Sept 2024 – Feb 2026

Tech Mahindra, Nissan Account

Chennai

- Contributed to development and maintenance of Java 11/Spring Boot services supporting global supply chain operations.
- Achieved 100% on-time incident resolution with zero SLA breaches, using Grafana for log monitoring and root-cause analysis across 30+ enterprise applications.
- Supported release management implementation and back-out planning for controlled, low-risk production deployments.
- Improved data retrieval speeds by 45% through SQL query optimization and index tuning.
- Assisted in deploying containerized Docker applications onto AWS EC2 via Jenkins CI/CD pipelines, and integrating AWS S3 for secure file storage.

### Associate Software Engineer (Trainee)

Dec 2023 – Sept 2024

Tech Mahindra

Chennai

- Completed intensive corporate training on Core Java, Spring Boot ecosystem, and RDBMS.
- Cleared internal engineering benchmarks and technical assessments to qualify for high-priority automotive client team.

## TECHNICAL PROJECT

### Food Delivery Microservices (Full-Time Engineering Project)

Apr 2026 – June 2026

Personal Portfolio Project

- Independently engineered high-traffic microservices using Spring Boot and Netflix Eureka with API Gateway routing.
- Reduced latency by 35% utilizing Java 21 virtual threads and achieved 99.9% data reliability using Kafka with Saga and Transactional Outbox patterns.
- Accelerated database queries which decreased overall MySQL load by 25% using Spring Data JPA and efficient data serialization.
- Implemented JWT-based authentication, role-based access control, and observability with Prometheus/Grafana.

## EDUCATION

### M.Sc Information Technology

Jun 2021 – Jun 2023

D.G. Vaishnav College (Madras University)

Chennai

CGPA: 8.18

### B.Sc Computer Science

May 2018 – May 2021

SRM University

Chennai

CGPA: 7.34

## CERTIFICATIONS

**AWS Certified Cloud Practitioner** [credly.com/badges/ad7265c4-3fb4-4ea1-9145-c8c7836d6720](https://www.credly.com/badges/ad7265c4-3fb4-4ea1-9145-c8c7836d6720)
