PROFESSIONAL SUMMARY

Java Backend Developer with 2+ years of experience designing and developing scalable REST APIs and microservice applications using Spring Boot. Hands-on expertise in AWS (EC2, S3), Docker, automated deployments via CI/CD, and Kafka-based event-driven architectures.

TECHNICAL SKILLS

Languages & Frameworks: Java 11, Java 21, Spring Boot, Spring Security, Hibernate/JPA, MySQL, REST APIs, Microservices, AWS, EC2, S3, IAM, CloudWatch, RDS, Apache Kafka, Event-Driven Architecture, Saga Pattern, OAuth 2.0, JWT

Tools & Environment: Jenkins, Docker, Git, Kubernetes, Redis, Maven, Grafana, JUnit, Postman, IntelliJ IDEA, Eclipse.

PROFESSIONAL EXPERIENCE

Software Engineer (Backend Dev)

Sept 2024 – Feb 2026

Tech Mahindra, Nissan Account

Chennai

- Designed and developed 8+ core REST APIs using Java 11 and Spring Boot, powering global supply chain operations.
- Optimized SQL queries and implemented index tuning, improving data retrieval speed by 45%.
- Resolved critical production incidents through detailed log analysis and root-cause investigation, ensuring controlled, low-risk production deployments and maintaining 99.9% system availability across 30+ enterprise applications.
- Deployed containerized Docker applications onto AWS EC2 using existing Jenkins CI/CD pipelines with automated test case execution.
- Integrated AWS S3 for secure file storage and monitored applications using Grafana for performance optimization.

Associate Software Engineer (Trainee)

Dec 2023 – Sept 2024

Tech Mahindra

Chennai

- Completed intensive corporate training on Core Java, Spring ecosystem, and RDBMS.
- Cleared internal engineering benchmarks and technical assessments to qualify for high-priority automotive client team.

TECHNICAL PROJECT

Food Delivery Microservices (Full-Time Engineering Project)

Apr 2026 – June 2026

Personal Portfolio Project

- Independently engineered high-traffic microservices using Spring Boot and Netflix Eureka with API Gateway routing.
- Reduced latency by 35% utilizing Java 21 virtual threads and achieved high data reliability using Kafka with Saga and Transactional Outbox patterns.
- Accelerated database queries which decreased overall MySQL load by 25% using Spring Data JPA and efficient data serialization.
- Implemented JWT-based authentication, role-based access control, and observability with Prometheus/Grafana.

EDUCATION

M.Sc Information Technology

Jun 2021 – Jun 2023

D.G. Vaishnav College (Madras University)

Chennai

CGPA: 8.18

B.Sc Computer Science

May 2018 – May 2021

SRM University

Chennai

CGPA: 7.34

CERTIFICATIONS

AWS Certified Cloud Practitioner: [credly.com/badges/ad7265c4-3fb4-4ea1-9145-c8c7836d6720](https://aws.amazon.com/credentials/badges/ad7265c4-3fb4-4ea1-9145-c8c7836d6720)
